CARPET TILES

Nature's Playful Beauty

Inspired by aerial views of sunbaked farmlands, DESSO Arable brings a gentle rhythm to contemporary spaces. A cornerstone of the DESSO by Tarkett portfolio, the collection returns with a palette that feels both time-honoured and freshly revived. Its subtle organic texture captures the harmony between human intervention and natural landscapes, evoking openness, warmth, and grounded elegance.

Landscapes Reimagined in Texture

Arable 9097

Arable 7935

Arable reinterprets agricultural landscapes through a refined, contemporary lens. Its expanded palette of 16 warm, chalk-tinted neutrals is drawn directly from the earth, unfolding in soft greys, soothing browns, and delicate mineral hues. Subtle height shifts and gentle visual movement echo the beautiful irregularities found in nature. This quiet sense of play brings depth and authenticity to interior spaces, celebrating the calming poetry of natural forms.

Design that Moves with Your Space

Arable 2073
Arable 2062

Arable's timeless design and earthy palette make it effortlessly adaptable across a wide range of commercial environments. Its subtle patterning supports clear zoning while allowing spaces to transition naturally from one area to the next, making it ideal for corporate workplaces, learning settings, and shared communal spaces. Whether used in expansive open-plan layouts or more intimate, defined zones, Arable offers a balanced foundation that introduces organic movement, visual comfort, and a gentle connection to nature—shaping interiors that feel welcoming, harmonious, and grounded.

Beauty of Circularity

At Tarkett, our approach to circularity focuses on three key areas: design, materials and circular journey. For us, the beauty of circularity is about the beauty of the reused materials that go into our products, the innovative manufacturing processes we implement, and the knowledge that we're actively cutting down on waste and greenhouse gas emissions.

DESSO EcoBase®

Over a decade ago, we made a commitment to place circularity at the core of our ambitions as a company. Our carpet tiles are composed of two key components – yarn and EcoBase® backing – that come together just as neatly as they can later be taken apart. As part of our continuous efforts to reduce our carbon footprint, we are proud to introduce an improved EcoBase® backing, which sees a new bio-based ingredient replace a core ingredient formerly composed of petroleum-based content.

Our Circular Carbon Footprint

To keep track of the carbon generated and saved over a product's life cycle, we calculate the Circular Carbon Footprint of our carpets. Using independently verified data from the relevant Environmental Product Declaration (EPD), we aim to foster dialogue about the importance of circularity and the future carbon benefits that effective recycling can deliver.

Together with our holistic design approach and carefully considered materials, our closed-loop system enables our carpet tiles to record an impressively low circular carbon footprint – one we're continually working, alongside our partners and customers, to shrink even further.

Circular Carbon Footprint: based on Environmental Product Declaration (EPD) EPD-IES-0027944:001 DESSO Arable externally verified by Bureau Veritas. Based on the carbon footprint (Modules A-D), where Module D represents the future recycling potential with a closed loop recycling scenario, facilitated through Tarkett's Restart® recycling and take-back programme.

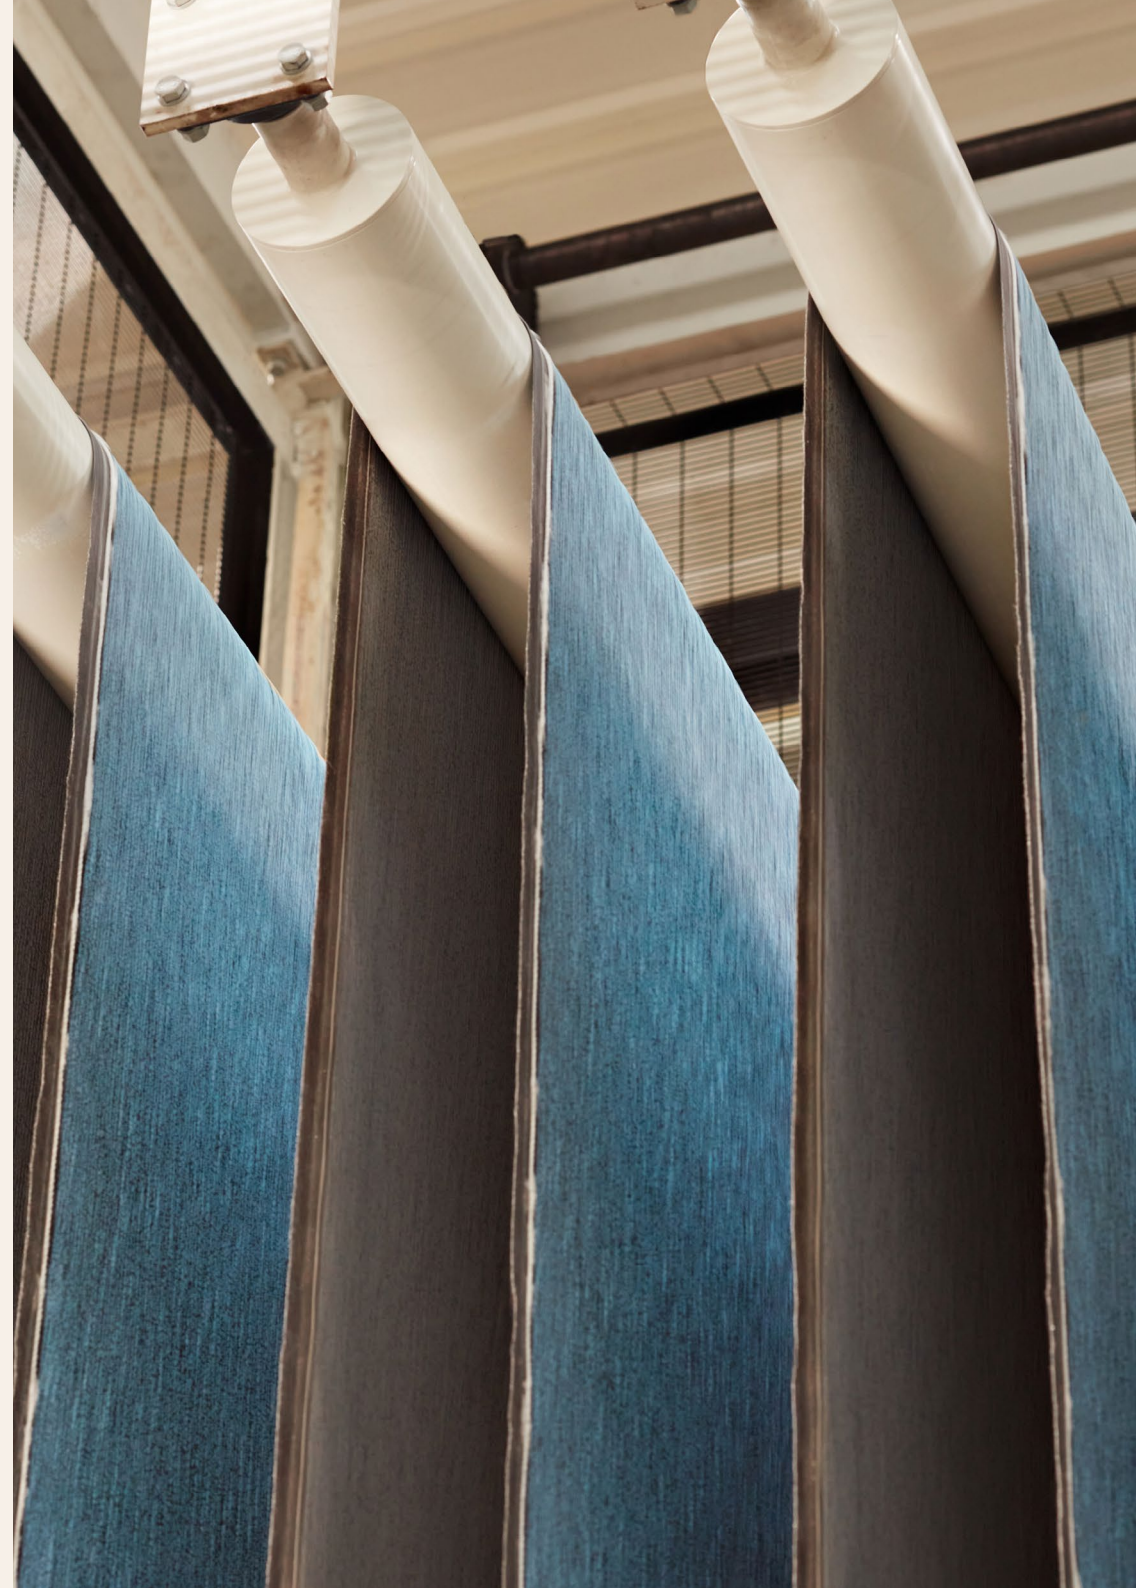

Sustainability Credentials

Circular Carbon Footprint (Modules A-D)	Total recycled and bio-based content
0.90 kg CO ₂ eq/m ²	68.6%
100%	100%
Yarn recycled content	Recyclable yarn and backing

Closing the loop with
Tarkett's ReStart® programme
